Advances in Optics and Photonics

An online, quarterly, peer-reviewed multimedia journal of reviews and tutorials

Editor-in-Chief

Bahaa Saleh, CREOL,
University of Central Florida

An online quarterly review journal – with a difference. Core articles are comprised of lengthy, highly authoritative surveys of important fields. AOP also offers distinctive features including tutorials by leaders in optics, and an array of interactive components with discussion threads and interactive equations. The inaugural issue of AOP will be published in January 2009, and will be free to all subscribers during 2009.
