

# APL: Organic Electronics and Photonics

[apl-oep.aip.org](http://apl-oep.aip.org)

New online journal mirrors new topical section in *Applied Physics Letters*

## Editor

Nghi Q. Lam

*Argonne National Laboratory,  
Argonne, IL*

*APL: Organic Electronics and Photonics* (APL: OEP) breaks out content from *Applied Physics Letters* (APL) and mirrors the newly established APL topical section of the same name. Subscribers to APL automatically have access to this new product. Topical coverage include organic light-emitting devices, thin-film transistors, memories, capacitors, photodiodes, photovoltaic cells, and more. New articles will be published simultaneously with their appearance in the online version of APL.

## 2009 Publication Frequency

There is one volume per year.

**Format** Online

## Online Backfile

1980-2008

**ISSN** 1931-9401
