Now with access back to Volume 1 (1970)

AIP Conference Proceedings provide students and researchers with in-depth coverage of emerging technologies and leading-edge research that is often unavailable anywhere else. Published immediately after contributors present their findings, volumes offer the scientific community its first access to breakthrough results. In addition, AIP Conference Proceedings publish papers from the meetings of many of the world's most prestigious scholarly societies, preserving the continuity that's lost when papers appear in various journals.

Now there are a number of ways to provide your patrons with the information found in AIP Conference Proceedings. You can receive an online-only subscription for all volumes published in 2009. You can also receive online access by subscribing to the AIP Complete package (see page 52). Libraries also have the option of receiving online subscriptions to any of seven subseries. Subscriptions include access to all titles in your subscription category (complete series or subseries) back to Volume 1. The subseries are as follows:

- **Mathematical and Statistical Physics**
- **Atomic, Molecular, and Optical Physics**
- **Materials Physics and Applications**
- **Nuclear and High Energy Physics**
- **Accelerators and Beams**
- **Plasma Physics**
- **Astronomy and Astrophysics**

Some Recent Volumes:

- CP1027 **Albert Co, Gary L. Leal, Ralph H. Colby, A. Jeffrey Giacomin** THE XV INTERNATIONAL CONGRESS ON RHEOLOGY: The Society of Rheology 80th Annual Meeting
