Now offering online-only subscriptions to seven subseries

AIP Conference Proceedings provide students and researchers with in-depth coverage of emerging technologies and leading-edge research that is often unavailable anywhere else. Published immediately after contributors present their findings, volumes offer the scientific community its first access to breakthrough results. In addition, AIP Conference Proceedings publishes papers from the meetings of many of the world's most prestigious scholarly societies, preserving the continuity that's lost when papers appear in various journals.

Now there are a number of ways to provide your patrons with the information found in AIP Conference Proceedings. You can receive an online-only subscription for all volumes published in 2008. You can also receive online access by subscribing to the AIP Archival Plus package (see page xx). Libraries also have the option of receiving online subscriptions to any of seven new subseries. Subscriptions include access to all titles in your subscription category (complete series or subseries) back to January 2000. The subseries are as follows:

- **Mathematical and Statistical Physics**
- **Materials Physics and Applications**
- **Accelerators and Beams**
- **Astronomy and Astrophysics**
- **Atomic, Molecular, and Optical Physics**
- **Nuclear and High Energy Physics**
- **Plasma Physics**
