

American Journal of Physics

<http://scitation.aip.org/ajp/>

Essential reading for all physicists and physics educators

The *American Journal of Physics* is devoted to the instructional and cultural aspects of physical science. A publication of the American Association of Physics Teachers, this archival journal is geared to an advanced audience, primarily at the college level. Contents include novel approaches to laboratory and classroom instruction, insightful articles on topics in classical and modern physics apparatus notes, historical or cultural topics, and book reviews.

Online users have the option of creating their own article collection and also can take advantage of reference linking within articles. Subscribers can now search and view issues from 1975 to present.

The Physics Teacher

<http://scitation.aip.org/tpt/>

Essential reading for all introductory level physics and physical science educators

A publication of the American Association of Physics Teachers, *The Physics Teacher* is dedicated to the strengthening of the teaching of introductory physics at all levels. The contents include tutorial papers, articles on pedagogy, current research or news in physics, as well as history, philosophy, and biography. Notes cover classroom techniques, and columns feature demonstration apparatus and book and film reviews.

Online users have access to a full-featured electronic journal that provides access to back issues featuring table of contents, abstracts, and the full text of every article back to 1963.
