# Journal of Vacuum Science & Technology B: Microelectronics and Nanometer Structures

[scitation.aip.org/jvstb/](http://scitation.aip.org/jvstb/)

## JVST A & B publish over 6,000 pages annually

By emphasizing microelectronics and nanometer science, *JVST B* is the major journal for electronic materials and device processing, for nanometer scale physics and engineering, and also as a source for papers from major international conferences. Papers will be published from the Annual Physics and Chemistry of Semiconductor Interfaces Conference, the International Electron, Ion, and Photon Beam Technology and Nanofabrication Conference, and the International Vacuum Nanoelectronics Conference, International Workshop on INSIGHT in Semiconductor Device Fabrication, Metrology and Modeling; North American Molecular Beam Epitaxy Conference; and the International Conference on One-dimensional Nanomaterials.
