**Actively promoting the application of physics to medicine and biology**

*Medical Physics* is the scientific journal of the American Association of Physicists in Medicine and is an official science journal of the Canadian Organization of Medical Physics, the Canadian College of Physicists in Medicine, and the International Organization for Medical Physics (IOMP). It publishes research concerned with the application of physics and mathematics to the solution of problems in medicine and human biology. Manuscripts covering theoretical or experimental approaches are published.

The journal is characterized by a rigorous refereeing process with selected associate editors and referees committed only after they have been consulted on the specific manuscript. The journal features review articles, research articles, technical reports, technical notes, Point/Counterpoint debates on controversial issues, Vision 20/20 future-focused articles, and letters. The journal also carries AAPM Task Group Scientific Reports.
