

Journal of Lightwave Technology

<http://jlt.osa.org>

A joint publication from OSA and IEEE covering fiber and cable technologies

Designed for optical scientists and electrical engineers, the *Journal of Lightwave Technology* contains both theoretical and experimental papers on a variety of topics. Peer-reviewed, original contributions on topics such as fiber optics and cable technologies, active and passive guided-wave components, integrated optics and optoelectronics are explored in this journal. *JLT* is a joint publication of the OSA and the Institute of Electrical and Electronics Engineers (IEEE).

Subscription order forms are available at www.osa.org/pubs/subscribers.

CODEN JLTEDG

Journal of Optical Technology

An English translation of the journal *Opticheskii Zhurnal* (published by the S. I. Vavilov State Optical Institute and D. S. Rozhdestvensky Optical Society, St. Petersburg, Russia)

<http://jot.osa.org>

Reports of optics research, optical instrument production and applications related to space, astronomical, medical, and other optical engineering

This journal includes basic and applied research in optics, design details, and technology production of a diversity of optical instruments along with a section on computational optics, optical materials, and detectors, useful to engineers, mathematicians, and physicists, as well as optical scientists.

Subscription order forms are available at www.osa.org/pubs/subscribers.
