

Physical Review B: Condensed Matter and Materials Physics

prb.aps.org

Physical Review B (PRB) is the largest and most comprehensive international journal specializing in condensed-matter phenomena. PRB appears monthly in two sections, **B1** and **B15**; each section is further divided into two parts:

B1: Structure, phase transitions, ferroelectrics, nonordered systems, liquids, quantum solids, magnetism, superconductivity, superfluidity.

B15: Electronic structure, photonic crystals, semiconductors, mesoscopic systems, surfaces, clusters, fullerenes, graphene, nanoscience.

2009 Publication Frequency

Volumes 79, 80 (48 issues)

Format

Print, online, CD-ROM, microfiche

ISSN Print: 1098-0121

Online: 1550-235X

CD-ROM: 1538-4489

Editors

Peter D. Adams,

American Physical Society

Anthony M. Begley,

American Physical Society

ISI's Impact and Immediacy Data (2007)

Impact Factor: 3.172

Immediacy Index: 0.652
