

Physics Bachelors 1 Year Later

9,250 Recent Degree Recipients

Note: Data in this figure are from the AIP Statistical Research Center's annual Bachelors Follow-up Survey, classes of 2019 and 2020 combined. The 9,250 degree recipients represent the average of these two classes. Two percent of respondents to the survey indicated that they had left the US to pursue employment or graduate study and are not included in the figure.
