Joanna Behrman

The Society of Physics Students (SPS) summer internship program offers 10-week positions for undergraduate physics students in science research, education and policy with various organizations in the Washington, DC area. Starting in 2013, SPS has placed one or two interns with the AIP Center for the History of Physics to work on these Teaching Guides. Those interns are listed above and denoted by the (SPS) following their names. We'd like to thank the Society of Physics Students for advancing this project by supporting these interns.
